

GET MOVING

We would like to encourage our patients to get dressed and mobile as soon as they are able to promote their dignity, independence and to help them recover quicker

2 GET HOME

We are asking relatives, carers and friends to help our patients by:

- Bring in daywear, underwear, socks and comfortable shoes

- Providing glasses, hearing aids and/or any other items that our patients would usually have at home

- Toiletries to assist in washing, as well as toothbrushes and toothpaste

- You are welcome to assist your friend/relative with eating, dressing and walking. Our staff are happy to support you in the correct way to do this
