Our future... your say

Bolton NHS Foundation Trust Strategy 2019-24
Bolton NHS Foundation Trust is the organisation responsible for providing patient care at health centres and clinics in the community and at Royal Bolton Hospital, as well as services such as district nursing. We also provide short-term care for patients that are not quite well enough to be at home after a stay in hospital or following a period of illness.

During the first half of 2019 we will be working with the public, our patients, our staff, and all of our partners to set out what the Trust should concentrate on for the next five years.

We want to be:

...the best provider of healthcare

...and the best place to work
We think it is important that we:

- Provide safe, effective and compassionate care to every patient every time.
- Are thought of as a great place to work.
- Spend our money wisely so that we can invest in improvements.
- Build on our strong local partnerships and work together for the people of Bolton.
- Make sure that all health and care services in Bolton work well together.
- Make best use of our properties and land to support these aims and improve the health and wellbeing of local people.

We want to know:

- What’s important to you about what we do in our health services in the community and at the hospital?
- What do you think we should be aiming to achieve over the next five years?
- What does a great future for the Trust look like to you?
You can let us know

- By email at myfuturebft@boltonft.nhs.uk
- On Twitter @boltonhsft using the #MyFutureBFT
- On Facebook at Bolton NHS Foundation Trust
